INFORMATION ASSURANCE | VULNERABILITY ASSESSMENT | SYSTEM & NETWORK ADMINISTRATION | CUSTOM PROGRAMMING SUPPORT | SECURITY ENGINEERING | SYSTEM ENGINEERING

StepTech LLC provides a full range of Information Technology (IT) expertise. We provide superior Assessment and Authorization (A&A), Programming and System Engineering support services for DoD, Intelligence, Federal, Civilian and Law Enforcement agencies. Our goal is simple: the satisfaction of each client.

PAST PERFORMANCE

National Maritime Intelligence Center/ Office of Naval Intelligence

Provided Information Assurance support: Navy Qualified Validator (NQV) Level - III, Security Controls Assessor and Information System Security Officer. Provided expertise in DIACAP, RMF, eMASS, Xacta, ACAS, SECSCN, WASSP, DISA STIGS and SCAP Benchmarks. Developed and maintained a formal Information Systems (IS) Security Program; enforcing security policies for all three domains: SIPRNET, JWICS and ATLAS.

Defense Information Systems Agency

Developed an application called Network Design Support System (NDSS), to analyze the CONUS and OCONUS access line, backbone areas, and routing tables. NDSS was also used for network Modeling and Simulation initiatives.

Washington Planning Center

Provided DIACAP consulting support for the Tomahawk Command and Control System (TC2S). Conducted program security inspections to assist in preparation for Navy-wide Inspector General (IG) security audits. Provided Information System Security Manager (ISSM) support. Provided expertise in DIACAP, eMASS, Retina, SECSCN, WASSP, DISA STIGS and SCAP Benchmarks.

Food & Drug Administration

Designed and installed a monitoring network for the UPS and emergency generators at the White Oak Campus located in Silver Spring, Maryland. Delivered a Liebert SiteScan Web network that uses microprocessor-based control modules to monitor and control Liebert precision cooling, power, UPSs and other critical equipment. The monitoring network powered by Liebert SiteScan Web enables the user to monitor and control equipment in a single building, an entire campus or a network of facilities around the globe.

Federal Bureau of Investigation (FBI)

Provided support by identifying, assessing and resolving security-related issues affecting the Assessment and Authorization of Department of Justice (DOJ) systems and networks. Provided Information System Security Manager (ISSM) support.

Naval Surface Weapons Center Dahlgren Division

Provided Navy Qualified Validator (NQV) Level – III support for RDT&E systems. Evaluated IA discrepancies and recommended mitigation measures for reducing or eliminating specific risk. Engaged the Navy SCA Liaisons, AODR Reviewers, and NAO Action Officers to assist in successfully attaining ATOs.

Capabilities Statement
